Valve World Asia 2024 – Call for Papers: Analysing the Full Life Cycle of Valves

The concept of the Full Lifecycle is becoming a key business strategy, not only in the valve industry but also across various fields, for being the road one must get through to realize long-term sustainable development within an ever-changing geo-political landscape. Therefore, the call for papers for the 2024 Valve World Asia Conference will cover the concept of the Full Life Cycle of Valves, which means that potential speakers must submit an abstract in accordance with the selected topics. The topics are suggested and confirmed by the international Steering Committee team, which is composed of experts who are well regarded industry-wide.

Full Life Cycle Topics

- Procurement
- Standards
- Materials
- Design
- Selection
- Manufacturing
- Testing
- Maintenance & Repair
- Application
- Trend

The main fields of application:

- Chemical industry
- Petrochemical/refinery
- Pipeline industry
- LNG
- Hydrogen Technology
- Offshore and oil & gas
- Power generation
- Pulp & paper
- New Energy

How to submit an abstract

Please send your abstract to the conference coordinator Ms Laura WANG by e-mail at vwasia.conf@kci-world.com. Prospective authors wishing to present a paper should submit an abstract of about 300–400 words before the 20th of February 2024, and suggest a few topics for the session that it will fit. Mention your name and function, company name and full address details including e-mail address, and the title of the paper.

Important dates

Abstract submission deadline
20th of February, 2024
Notification of authors March, 2024
Deadline final papers 10th of May, 2024
Conference dates 3-4 July 2024

Don't miss out on a chance to share your leading research, innovations and practices, and connect with peers from all over the world!

Dear valve industry peers,

Right now, the world is facing drastic changes. Various security and economic challenges keep emerging. But the requirements for the adoption of Industry 4.0 in the valve industry have never changed. From automated production to digital delivery, from preventive maintenance to fault status monitoring, from more stringent conditions to high reliability operation, Digital Intelligence will enable the valve industry to develop in high quality, to meet the needs of users in the valve life cycle of high reliability and low cost.

On July 3-4, 2024, the 10th Valve World Asia Expo and Conference will come to Shanghai again. As the conference chairman, I sincerely invite new and old friends in the valve industry to participate in this event and establish network with professionals from domestic and foreign valve manufacturers, end users, design units, scientific research institutes and engineering consulting companies.

Exchange views, share experience, find creative solutions, and foster new opportunities in the midst of challenges! *See you in Shanghai!*

Best regards,
Gang ZHENG
SINOPEC SHANGHAI GAOQIAO PETROCHEMICAL CO.,LTD.
Chairman of Valve World Asia Conference 2024

Co-Chair:

Jun HU Senior Engineer
Hefei General Machinery Research Institute Co., Ltd.

Committee Members:

Alex CHEN
Senior Reliability Manager
Dow Chemical

Irawan Josodipuro
Senior Engineer Project Engineering/
Piping Valve Pressure Vessel Reference
Specialist PT Pertamina Hulu Mahakam

Masayuki ONO
Expert Piping Materials
JGC Corporation

Jason RAO
Piping engineer manager
DOW (SHANGHAI) HOLDING COMPANY LTD.

Qi TANG
Senior Engineer
Air Products & Chemicals (China) Co. Ltd.

Chunjing WANG
MSE Manager
Air Products & Chemicals (China)
Investment Co., Ltd.

Guohong ZHANG
President
FR Valve

Elly Chen
Senior Piping Material Engineer
BASF (China) Co., Ltd.

Dayong LI
Global Piping WP&Practice Expertise Area
Leader (Technical Expertise and Support)
Hardware Discipline Technology Center
The Dow Chemical Company

Bronson Pate
Vice President of Operations
Magdrive Technologies

Xiaolei SHI
Material Engineer
Wison Engineering

Mohammed W. Tarabzouni
Projects & Technical Support
Saudi Aramco

Xueming YAO
Deputy Director of Piping Engineering
SINOPEC Shanghai Engineering Co.,Ltd.

Cheng ZONG
General Manager
Viza Valves

Mohd Szali Ismail, PEng
Head of Mechanical / Principal Piping
PETRONAS IRSO WC

Asrul Hazimin B Mohamad
Custodian (Piping)
PETROLIAM NASIONAL BERHAD (PETRONAS)

Allan Raymond S. Ramos
Fluor Philippines
Senior Piping Material Engineer

Tengku Syahdilan
Sr. Piping Valve Vessel Engineer
Pertamina Hulu Mahakam

Tatsuya TOBE
Piping Material Engineering Group Manager
JGC Corporation

Henry YE, Ph.D.
Senior Materials Engineering Consultant
Chemours China

Valve World Asia Expo & Conference 2024

3-4 July, 2024
Shanghai, China

SECURE YOUR SPOT AT VALVE WORLD ASIA EXHIBITION 2024

www.valve-world-asia-event.com

Exhibition: showcase and promote your brand and products

The Valve World Asia Expo & Conference was first held in China in 2005. To date, the biennial event has successfully taken place in Shanghai and Suzhou nine times and been extremely beneficial for all those who have had the chance to participate. It has played an important role in connecting the supply and demand markets, and established a diverse platform for manufacturers, end users, EPC companies, and third-party institutes to network and form business relationships.

Our goal is to:

- Present the latest developments and best practices in industrial valves
- Connect experts and peers to gain and improve knowledge
- Further develop end user understanding of specialist equipment
- Introduce new and potential clients and promote new products and projects
