Market Size, Demand Status, and Future Forecast of China's Industrial Valves and Fittings Industry

In 2023, the market scale of China's industrial valves and fittings reached USD 15.2 billion, accounting for over 20% of the global market share and **cementing China's position as the world's largest consumer market.** In traditional sectors, the petrochemical, power, and water utility industries contributed over 70% of the market share, with steady demand. Meanwhile, high-end projects such as nuclear power and supercritical thermal power plant construction continued to drive the demand upgrade for high-end products like nuclear-grade valves. Additionally, emerging sectors are experiencing explosive growth: the new energy (hydrogen energy, photovoltaics) and environmental protection (sewage treatment, waste gas governance) sectors are growing at an average annual rate exceeding 15%. Photovoltaic power plant construction has spurred a surge in demand for control valves, while hydrogen energy storage and transportation projects are accelerating the localization of ultra-low temperature valves. The demand structure is undergoing profound changes, with intelligence, greenization, and high-endization becoming the main trends. **By 2030, the market share of smart valves is expected to exceed 50%, enabling functions such as remote monitoring and fault diagnosis.** The proportion of customized orders has surged from 15% in 2023 to 25% in 2025, reflecting users' significantly higher comprehensive requirements for product quality,

functionality, and services. Driven by China's "dual carbon" goals, the demand for energy-saving and environmentally friendly valves continues to soar, with the localization rate of ultra-low temperature valves, nuclear-grade valves, etc., exceeding 45%.

China's robust market demand presents strategic opportunities for both domestic and foreign enterprises. The market size is projected to reach USD 17.1 billion by 2025, with a compound annual growth rate (CAGR) of 6.21%, and surpass USD 22 billion by 2030, increasing the global market share to 25%. Infrastructure dividends and policy support have opened up broad avenues for valve enterprises in localized R&D, technological cooperation, and high-end market substitution. **High-growth segments such as hydrogen energy storage and transportation, and biopharmaceuticals, will unleash even greater market potential.** Both domestic and foreign enterprises need to position themselves accurately and deeply integrate into China's strategic opportunities for the intelligent upgrading and green transformation of the industrial valve sector.

Participate in Valve World Asia Expo & Conference 2026, the premier platform for entering the Chinese and Asian valve and flow control markets. Showcase your latest innovations and technological advancements, establish effective connections with local potential customers and partners, and expand business opportunities!!

International Steering Committee

Gang ZHENG
Deputy Manager of Equipment Management Department
SINOPEC SHANGHAI GAOQIAO PETROCHEMICAL CO.,LTD.

Mrinal Das
Senior Vice President Projects and Purchase (Engg.)
Dorf Ketel Chemicals India Private Limited

Xueming YAO
Deputy Director of Piping Engineering
SINOPEC Shanghai Engineering Co.,Ltd.

Jun HU
Senior Engineer
Hefei General Machinery Research Institute Co., Ltd.

Allen WANG
MSE Manager
Air Products & Chemicals (China) Investment Co., Ltd.

Adrian Wang
Engineering Manager of Engineering & Technical Services
Aramco Asia

Asrul Hazimin B Mohamad
Custodian (Piping)
PETROLIAM NASIONAL BERHAD (PETRONAS)

Richard Bonardo Napitupulu
Project QA/QC and Commissioning Lead
PT Pertamina Hulu Energi ONWJ

Fei ZHANG
Senior Engineer
Offshore Oil Engineering Co., LTD.

Dayong LI
Global Piping WP&Practice Expertise Area Leader (Technical Expertise and Support)
Hardware Discipline Technology Center
The Dow Chemical Company

Mousa R. Al-Harbi
Engineering Consultant and Valves Committee Chairman
Saudi Aramco

Guohong ZHANG
President
FR Valve

Qi TANG
Senior Engineer
Air Products & Chemicals (China) Co. Ltd.

Tatsuya TOBE
Expert, Piping Materials / Execution
JGC Corporation

Lee FANG
General Manager
FBV INC.

Henry YE, Ph.D.
Senior Materials Engineering Consultant
Chemours China

Xiaolei SHI
Material Engineer
Wison Engineering

Cheng ZONG
General Manager
Viza Valves

Updating

The main fields of application:

- Chemical industry
- Pipeline industry
- Oil & Gas
- Power generation includes nuclear power
- Pulp & paper
- Offshore Industry
- Semiconductor and Electronics Industry
- Carbon peaking and carbon neutrality
- Petrochemical/refinery
- LNG
- Green energy (Hydrogen energy...)
- Aerospace Industry

The main conference topics:

- New valve designs
- Leaking detection/Fugitive emissions
- Maintenance and repair
- Sealing technology
- Global valve manufacturing trends
- Procurement strategies
- AI
- Standardisation and conflicts between valve standards
- VOCs control & LDAR
- Refinery and Chemical plant applications
- Industry trends
- Control valves
- Castings, forgings, materials
- Actuation
- Safety equipment
- Export and import

**For more information or help,
please contact:**

Ms. Laura WANG

Email: h.wang@kci-world.com

Tel: +86 21 6351-9609

How to submit an abstract:

Please send your abstract to the conference co-ordinator Ms Laura WANG by e-mail at vwasia.conf@kci-world.com. Prospective authors wishing to present a paper should submit an abstract of about 300–400 words before the

19 of December, 2025, and suggest a few topics for the session that it will fit. Mention your name and function, company name and full address details including e-mail address, and the title of the paper. The following selection criteria will apply:

- quality of the content
- focus on application experience
- informative to a wide audience
- affiliation with the conference subject balance
- technical nature, i.e. non-commercial

The deadline for abstracts is the **19th of December, 2025**. Presenters will be notified by the 10th of February, 2026 as to whether or not their proposed presentation has been accepted by the Steering Committee. Consequently they will be invited to submit the complete manuscript, which will be published on the “Valve World” journals or websites.

New Pricing System for Conference Speaker:

- Conference speaker slots are now complimentary for presenting authors who are affiliated with exhibiting companies, subject to availability.
- For speakers from non-exhibiting companies, we have introduced a new registration fee structure that includes:
 - One speaking slot
 - One complimentary conference ticket for co-authors (only)
 - Access to the Network Reception (dinner party on the first conference day)

Valve World Asia Expo & Conference 2026

22-23 June, 2026
SNIEC, Shanghai, China

Book a Stand

Exhibition: An Ideal Venue for Displaying and Advancing Your Brand and Products

Join us at the Valve World Asia Expo & Conference on June 22-23, 2026. This event offers you unparalleled opportunities for networking and technology transfer. You'll gain insights into the latest industry developments, uncover best practices in valve and flow control not only within China but also across the broader Asian market and even beyond.

Why exhibit at Valve World Asia 2026?

- Present the latest developments and best practises in valve and flow control industry
- Connect experts and peers to gain and improve knowledge
- Further develop end user understanding of specialist equipment
- Introduce new and potential clients and promote new products and project

Attendee Profile Analysis: Unveiling Trends at Valve World Asia 2024

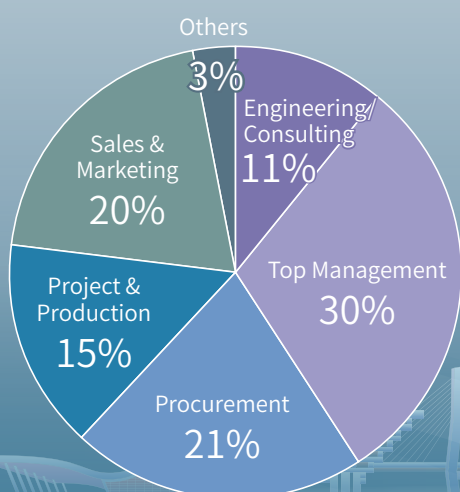

Which industry segment does your company primarily serve?

Which specific products or services are you primarily interested in exploring at Valve World Asia?

What are the job types of Valve World Asia visitors?

2 Media Fee

This is an obligatory administration and media fee **€300** which further provides:

- *Up to 5 Basic Headed Entries in Valve World Asia Expo & Conference 2026 Catalogue
- A hyperlink on the online list of Exhibitors of Valve World Asia Expo 2026

3 Catalogue Advertising

- Advertising

- ☐ 1/1 Page Full Color Advertisement: **€1.500, -**
- ☐ 1/2 Page Full Color Advertisement: **€1.200, -**
- ☐ 1/3 Page Full Color Advertisement: **€950, -**

- Entries

— Extra Entries: **€49, - per entry**
In addition to the 5 Basic Headed Entries.

- ☐ Upgrade to Optimum Entries: **€990, -**
All your entries become boxed with your company logo.

- Company Logo on the Luminous Logo Wall

- ☐ Company Logo: **€350, - per logo**
 - Logo on the web floorplan, and on the trade fair navigators on site.
 - Logo on the Luminous Logo Wall

4 Free digital Subscription

- ☐ Valve World Magazine: 10 issues per year
- ☐ Valve World Newsletter: 47 editions per year
- ☐ Valve World Asia Magazine: 6 issues per year
- ☐ Valve World Asia Newsletter: 24 editions per year
Delivered to email address as detailed above.

5 Stand Space Booking Detail

- Stand

Chosen Stand Nr: _____ Stand Size: _____ m²

- ☐ Row stand: 1 Open Side

Cost: **€377, - per m²**

- ☐ Corner / Island Stand: 2 or more Open Sides

Cost: **€430, - per m²**

- ☐ Co-Exhibitors Fee (at least 20 m²): Applicable to all co-exhibitors, Cost: **€1000, -** plus Media Fee per co-exhibitor
** Please note all prices are excluding Shell Scheme.*

- Shell Scheme

- ☐ Standard shell scheme: **€55, - per m²**
- ☐ Premium shell scheme A: **€85, - per m²**
- ☐ Premium shell scheme B: **€90, - per m²**
- ☐ Premium shell scheme C: **€160, - per m²**

Shell scheme or approved equivalent is minimum requirement - further details upon request

- ☐ Special Requests: _____

N.B. The organization will take your special request into account as much as possible. However, we cannot guarantee that all special requests will be granted.

Cost Stand Space: € _____

Cost Co Exhibitor (s): € _____

Cost Shell Scheme: € _____

Cost Media Fee: € _____

Cost Advertising: € _____

Total Cost: € _____

6 Invoice Schedule

You will receive 2 invoices of total costs:

1st invoice: 50% at the time of booking,

2nd invoice: 50% of the total cost in November 2025.

Cancellation Policy –

25% cancellation fee of the total original cost will be applied upon signing the form.

Cancellation within 6 months prior to event is 75% of the total original cost.

Cancellation within 3 months prior to event is 100% of the total original cost.

**Please note all prices are excluding VAT.*

**All banking costs must be paid by the payer.*
